## Business Report

April 1, 2006 to March 31, 2007  
(the 57th Term)

## Concept of the Credit Saison Group

As a cutting-edge services company, we will promote the following three mottoes as the values that we will share: introducing policies geared toward customer satisfaction; aiming for mutual profits with our business partners; and cultivating a creative and innovative corporate culture. We will also prevail in a competitive market and offer benefits to our shareholders.

## To Our Shareholders

We are pleased to report to our shareholders on the closing of accounts for the 57th term of our Company (from April 1, 2006 to March 31, 2007).

In our mainstay credit card business, the scope of transactions expanded into utilities payments, taxes, medical bills, and other areas. Meanwhile, new settlement procedures using mobile phones are becoming increasingly popular, leading to increasing convenience for customers. Meanwhile, industry players are being forced to restructure their business models because of the influences of the reduction of the maximum allowable interest rate under the Investment Law and the revision of the Loan Business Law, including control of total amounts. Further market reorganization is likely.

In this environment, the Company achieved the enviable result of posting increases in both sales and profit for the 24th consecutive term. We continued to expand our member base, for example by issuing Yamada LABI Card in a joint business venture with Yamada Denki Co., Ltd., the first large alliance under the UC brand that was part of a merger with the Company in the previous consolidated fiscal year, as well as by issuing the SoftBank Card in alliance with SOFTBANK MOBILE Corp. As a consequence, the number of new card members in the fiscal year under review reached 3.6 million, and the number of card members at the end of the fiscal year became 24.91 million (up 9.3% year-on-year). We also expanded service functions using IT through such initiatives as handling mobile credit services in an alliance with NTT DoCoMo, Inc. and KDDI CORPORATION, redesigning Internet services for members, dealing with the e-money micropayment market.

To increase our competitive edge, we actively sought strategic alliances based on the credit card business. We strengthened our partnership with Takashimaya Company, Limited and agreed on alliances in the retail finance business with Shizuoka Bank, Ltd. and Yamaguchi Financial Group, Inc. In the meantime, we pursued synergy among businesses in business fields other than the credit card business, including the leasing, credit guarantee, and real estate loan businesses.

In addition to this expansion of operations by the Company, the entire Group bolstered its business foundation to enhance corporate value in each business, particularly the real estate business centered on Atrium Co., Ltd., and consequently achieved steady growth.

In response to rising claims for the return of interest associated with the maximum interest rate issue, we reviewed the method for estimating allowances for losses on interest repayments in the fiscal year under review and recorded a provision for allowances for losses on interest repayments.

As a consequence, we posted consolidated operating revenues of 333,683 million yen (rising 21.5% year-on-year), a consolidated ordinary income of 80,157 million yen (an increase of 12.7%), and a consolidated net income of 14,821 million yen (a decrease of 64.9%).

With the credit card industry becoming increasingly challenging, it will be difficult for us to record rises in sales and profit for the 25th consecutive term. Industry reorganization is expected to accelerate. In the environment, the Group will remain committed to its management creed as a cutting-edge services company, develop innovative new services, and strive to expand its customer base. At the same time, we will maximize our corporate value and benefit shareholders by developing a new medium-term business plan to facilitate structural reform and seek to play a key role in the market restructuring as an industry leader.

We hope that our shareholders will continue to support the Group and use the SAISON Card and UC Card.

## Topics for the 57th Term

### Promotion of jointly strategic alliances

#### Establishing joint card companies

##### Shizugin Saison Card Co., Ltd.

In October 2006, we established Shizugin Saison Card jointly with Shizuoka Bank. This was the first step in our area marketing strategy for expanding leading regional cards in alliances with regional financial institutions.

##### Daiwa House Financial Co., Ltd.

In November 2006, we established Daiwa House Financial jointly with Daiwa House Industry. The company will actively develop credit card transactions and loans associated with the diversified housing services of Daiwa House Industry and we will be responsible for the retail finance business of the Daiwa House Group.

#### Forming joint marketing companies

##### Yamada Financial Co., Ltd.

In June 2006, we established Yamada Financial with Yamada Denki, a leading home appliance volume retailer that ranks third among Japanese retailers in terms of sales, and issued 400,000 Yamada LABI Cards for the alliance by the end of March 2007.

Yamada LABI Card

##### Agrees to an alliance with Yamaguchi Financial Group, Inc.

In March 2007, we agreed to form an alliance with Yamaguchi Financial Group. Through the alliance with the largest financial group in the Shikoku and Chugoku region, a group that includes The Yamaguchi Bank (Shimonoseki) and Momiji Bank (Hiroshima), we plan to issue the strongest regional card in the area and promote loan services.

#### New affiliated cards

We have issued affiliated cards through alliances with a total of 230 companies in a broad array of industries, including department stores, railway companies, communications firms, and commercial facilities. We will continue to create profitable cards supported by customers, attaching importance to the number of cards to be issued, the rate of use, and transaction volume.

### Improving services and securing fresh revenue sources through new businesses

#### Eikyufumetsu.com

In October 2006, we set up an online shopping mall named Eikyufumetsu.com exclusively for Saison Card Net members (Net Answer members). About 200 major e-commerce shops of various categories have been opened in the mall. When a Net Answer member shops at the mall and pays with the Saison Card, the member will get two to nineteen times the number of Eikyufumetsu Points (SAISON Permanent points), depending on the amount of shopping. We will distribute profits from performance fees from e-commerce shops through Eikyufumetsu points. We expect to increase the number of new members through the mall. The scheme is the first of its kind in the card industry and we plan to develop it as a new business.

#### Saison Asset Management Co., Ltd.

In March 2007, we established Saison Asset Management, an investment trust management company, as a wholly-owned subsidiary, and began to offer original investment trusts by the direct selling method. Saison Asset Management sells two funds of funds investing in Index Funds provided by the Vanguard Group, Inc., one of the world's largest investment trust firms, Sawakami funds managed by Sawakami Asset Management Inc., among others. To meet the needs of customers who want to steadily build assets, we provide investment trusts suitable for long-term investment at low costs.

#### Thoroughbred Club Saison

In July 2006, we started a co-ownership investment system for racehorse for Saison Card members. Thoroughbred Club Saison divides the ownership of racehorses that it has purchased into 200 units or 400 units of equity and offers investment to dormant partners. If a racehorse accrues prize money or other earnings, dividends will be distributed to each partner in accordance with the number of units they hold.

Thoroughbred Club Saison now has 50 active racehorses. In June, it will begin to offer 20 new horses. We select and train racehorses in cooperation with Cosmo View Farm (Hokkaido), a leading racehorse farm, and believe we can look forward to some outstanding performances. Investors can feel like horse owners, watching their horses develop and supporting them at meets.

## Topics for the 57th Term

### Results and progress of the merger with UC Card

Since the merger of the UC Card member business in January 2006, we have integrated the card functions and services of the Saison brand and UC brand through the consolidation of redundant organs and the fusion of personnel.

#### Standardization of credit criteria

With respect to card functions, we standardized credit criteria and streamlined and improved the efficiency of the organization. The consolidated divisions are operating in the Shin Mejiro Building, which was set up as the Collection Center, in Edogawabashi (Bunkyo-ku, Tokyo).

#### Travel service

We consolidated our travel services, taking advantage of the strengths of both brands. We consolidated travel desks in addition to airport lounge services and overseas assistance services and outsourced the services to PTS Corp.

### Finance business

With the exception of the credit card operation, the finance business grew significantly. Consequently, the finance business contributed 17% of the non-consolidated ordinary profit in fiscal 2006.

In the real estate loan business, turnover expanded steadily in a booming real estate market. The balance of loans at the end of fiscal 2006 amounted to about 200 billion yen. In the credit guarantee business, which is operated in alliance with about 140 regional financial institutions across the nation, we formed an alliance with Chiba Bank in March 2007. The balance of guaranteed loans at the end of fiscal 2006 was 119 billion yen. The balance of the leasing business centered on vendor leasing was 223 billion yen at the end of fiscal 2006.

#### Announcement of a joint processing company initiative

In January 2007, we reached an agreement with Mizuho Bank and UC Card to establish a processing company in the credit card business and begin managing the company in April 2008 through joint capital investment by Mizuho Bank and the Company. Most of the processing work of the UC brand is outsourced to UC Card. Starting in April next year, however, almost all processing for both Saison brand and UC brand will be outsourced to the new company.

### Authorization of Privacy Mark

On June 1, 2006, the Company obtained the Privacy Mark. The mark is assigned to private companies that are deemed to be taking appropriate measures to protect personal information. In other words, the mark is a domestic standard on personal information management systems that shows that companies are managing personal information protection.

### Innovative appointments of directors

#### First female director Chikako Yokoi

Joined the Company as a part-time worker in 1986. Appointed head of the Promotion Center in charge of the Call Center in 2005. Now the deputy head of Credit Division (general manager of the Company's card operation division, with about 2,500 employees) and is striving to improve customer services and promote awareness of the processing business.

#### Director in his thirties Hong Tae Kim

Joined the Company in 2002 and was appointed general manager in charge of the Business Strategy Division. After working at forming alliances with Lawson CS Card, Risona Card, Takashimaya, and UC Card, and from 2005 was tapped to become the general manager of the Corporate Planning Department and deputy head of the Business Strategy Division. As head of the Retail Finance Division, now working to increase sales of cashing loan products. At 31, the youngest director of the Company.

#### Supporting company of Japan national soccer team

**ALL FOR 2010!**

Credit Saison supports the Japan national soccer team.

The Company concluded an eight-year sponsorship agreement with the Japan Football Association in March 2007. We are proud to continue our support for the Japan national soccer team.

## Overview of Results (Consolidated)

In the consolidated term under review, Credit Saison attained 21.5% year-on-year growth in operating revenues, which reached 333,683 million yen. It also posted an 8.1% increase in operating income, to 75,201 million yen, and a 12.7% increase in ordinary income, to 80,157 million yen.

Net income was 14,821 million yen, down 64.9% as a result of the posting of an allowance for losses on interest repayments associated with the revision of the method to estimate allowance for losses on interest repayments and the recording of expected losses on disposal of leased assets as depreciation of leased assets in extraordinary losses.

The following (at right) summarizes the results in each segment.

### Operating revenues

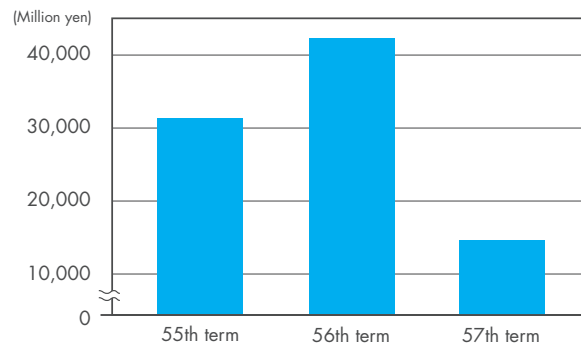

### Operating income

### Ordinary income

### Net income

## Overview of Results by Segment

### ■ Credit and finance (credit, loan, servicing and other businesses)

In our mainstay credit card business, we promoted alliances with Yamada Denki Co., Ltd., Daiwa House Industry Co., Ltd., SOFTBANK MOBILE Corp., etc. and issued a new card for wealthy customers in alliance with the Takashimaya Group, thereby strengthening our ties. To develop new customers, we formed alliances with Shizuoka Bank, Ltd. and Yamaguchi Financial Group, Inc. in the retail finance business and will provide a broader array of financial services to customers in the relevant regions.

We bolstered our utilities and mobile phone charges payments and our transactions in the e-money micropayment market. The loan business, including consumer finance, also performed well. As a consequence, operating revenues amounted to 284,192 million yen, rising 25.4% year-on-year, and operating income 61,484 million yen, up 12.4%.

### ■ Real estate (real estate liquidation, servicer, real estate fund, and other businesses)

In the real estate liquidation business, we steadily acquired properties and sold properties for sale according to plan in a booming real estate market. Meanwhile, we moved properties for sale (trust beneficiary rights) off the balance sheet and shifted to a fee business.

In the servicer business, we took steps to ensure debt collection through the disposal of real-estate collateral and enhanced business reconstruction projects steadily.

In the real estate fund business, we endeavored to maximize asset values by improving and stabilizing cash flows and the operating ratio by bolstering the value of property holdings, engaging in appropriate leasing and by reducing the expense ratio through strict property management.

Consequently, the Atrium group performed well, and operating revenues in the real estate business amounted to 20,574 million yen, a rise of 6.6%.

### ■ Entertainment (amusement businesses)

In the amusement business, we strived to develop sound, safe, comfortable, community-based amusement facilities. However, as a result of tighter regulations on gaming machines, operating revenues became 16,920 million yen, down 5.6%, operating income 2,045 million yen, down 23.9%.

## Overview of Results by Segment

### Lease

Although the leasing market is firm, backed by strong corporate capital spending, operating revenues fell to 6,795 million yen (down 5.4% year-on-year), and operating income slipped to 2,171 million yen (down 34.9%), on the influence of the revision of the notice on the Specific Trade Law, etc.

### Other (Insurance and other businesses)

The segment consists of the insurance agency business etc. Operating revenues amounted to 6,579 million yen (up 28.1% year-on-year), and operating income reached 5,425 million yen (up 40.8%).
